- **Database Management**: Faunadb | MongoDB | Supabase Postgres | Firestore | SQL | Planet-Scale DB.
- **Artificial Intelligence**: OpenAI API | Gemini | Claude AI | Streamlit | LangChain | Pinecone
- Jamstack | Microservices | Distributed Systems | Frontend | Backend | Full-Stack | English,Urdu, – All professional proficiency or above

About Me

With over three years of professional experience as a Full Stack Developer, I have successfully delivered more than 15 projects, specializing in Modern Web2.0 & Web3.0. My broad expertise includes developing standalone web applications, sophisticated microservices architectures, and API-driven solutions across diverse industries such as healthcare, fintech, and e-commerce. Dedicated to your project's success, I am eager to leverage my skills to help realize your vision and exceed expectations.

Experience

Full Stack Team Lead Zenexgen *Karachi, Pakistan -Onsite* **07/2025 - Present**

- Designed and led the **end-to-end architecture (mobile, web, backend, cloud)**.
- Delivered **2 production-ready products in parallel**, improving speed to launch and technical stability.
- Solved **integration and deployment complexity**.
- Enabled faster iteration and consistent user experience across platforms.
- Achieved secure, scalable systems ready for real users.
- Led and mentored a small engineering team, managing tasks, reviews, and delivery.

Full Stack Engineer BitXcels *Karachi, Pakistan -Remote* **02/2024 - 02/2025**

- Specialize in developing Web3.0 projects, including wallet connections for enhanced user transaction capabilities.
- Develop e-commerce platforms with sophisticated functionalities, leveraging Next.js for full-stack solutions.
- Deploy and manage servers on Amazon Web Services (AWS), and utilize S3 buckets for efficient image storage.
- Implement responsive and dynamic web interfaces using Tailwind CSS and Framer Motion for visual effects.
- Construct and maintain scalable web applications employing React.js,Nextjs, JavaScript, and Node.js.
- Design and apply robust REST APIs for optimal data interaction, enhancing application performance and scalability.

Frontend Engineer ChainVerse *Karachi, Pakistan -Remote* **09/2023 - 09/2024**

- Designing and implementing user-friendly interfaces.
- Collaborating with backend developers to ensure seamless integration.
- Testing and optimizing web pages for maximum speed and scalability.

Frontend Developer Freelance *Karachi, Pakistan - Remote* **2/2022 - 09/2023**

- Worked well independently and on a team to solve problems.
- Organized and prioritized work to complete assignments in a timely, efficient manner.

Education

Bachelor of Science Karachi Institute of Economics & Technology (KIET) *Karachi, Pakistan* **01/2021 - 2025**

- Computer and Information Sciences and Support Services

Recent Projects

- **Horsely**: Web 3.0 platform to mint horse genetics data as NFTs & can download them. [Visit](#)
- **MotoMate** : A full-stack vehicle service management system aimed at automating garage operations.. [Visit](#)

Certifications & Licenses

- **Free Premium JavaScript Module 3**: Earn certificate from BitDegree in which I learn complete Javascript. [Credential](#)
- **Front End Development Libraries**: Earn certificate from freecodecamp which shows approximately 300 hrs of work. [Credential](#)
